

The **Mission** of the Service is:

To promote an environment in which young people can grow and participate successfully in the life of their community.

The **Goals** of the Service are:

To provide holistic and integrated services to young people and their families;

To provide a range of responses to young people and their families, to include:

prevention, therapeutic intervention and support services within a framework of collaboration and participation.

The **Objectives** of the Service are:

To assist young people to improve their relationships with their families, existing support networks and broader community;

To assist young people and their families to access a range of resources, services and supports that will promote the personal growth and development of young people and / or their families;

To provide a range of responses to young people and their families which enhance their existing strengths;

To provide a range of programs for young people that are designed to meet their diverse needs;

To provide support to young people which promotes the development of their self-esteem, responsibility and independence;

To actively promote a positive image of young people, and to challenge the structural issues and negative stereotypes faced by young people through lobbying, advocacy and community development.
